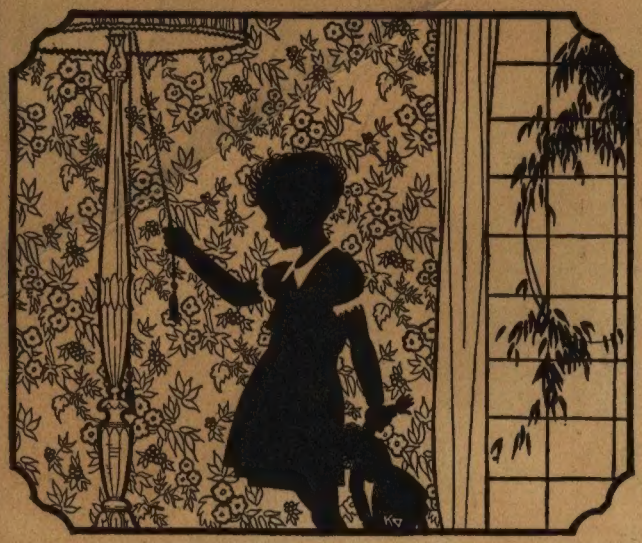
Bring the Outdoors, Indoors



There is No Place Like Home, if The Place is Home-like

It is our purpose in this booklet to show the simple manner in which you may transform dark corners into bright spots—how to make your home an everyday joy—full of harmony and beauty. Repapering a room invigorates your walls; it makes the room live.

Whatever color note you select be sure your room decorations follow this rule: light ceiling—medium walls—darker floors. This is one of nature's laws, necessary in room decoration—the light ceiling simulates the sky and makes the room pleasantly high—medium walls make a good background for furniture and people, while the darker floors obey the laws of gravitation and complete the natural sequence of light to dark.

People strive unconsciously, to reproduce on their walls the outdoor tints to which they are most accustomed, and any woman can practise the magic of color in her own home if she will.

Most of our bedroom papers are but graceful interpretations of a flower garden—there are few of us who do not respond eagerly to the suggestions of a flower or leaf spray.

Woodland scenics, and small pictorial scenic papers with perspective, create an illusion of space, making room or hall appear much larger. These papers for all their variety of line are never tiresome and are of great value in relieving eyestrain, as the eye travels past the design to the perspective beyond.

For Dining Room and Hall, they are truly delightful, as they furnish interest to the walls where pictures are ordinarily not used.

Stripes add height to low-ceiling rooms, while squat, horizontal patterns will make the small room appear larger.

The exposure of the room should always determine the color of the walls. Yellow, tan, creams, etc., should be used on rooms facing north and east, adding warmth and cheer to the cold light. Yellow brings artificial sunlight into the dark room.

"Cool" colors, such as gray, blue, green and lavender, tone down the warm exposure of rooms facing west and south.

You will find a design suitable for any room among these smart, tasteful patterns and they are so inexpensive you can afford to paper several rooms for the price you would ordinarily pay for one.

The very best colors are used in the manufacture of Niagara Wall Papers. Many styles are non-fadeable, bearing an insignia as a guarantee that they comply with the trade regulations as set forth by the Federal Trade Commission, both for stock and color fastness.

Dangers of Gasoline

Always remember that you must take no chances with gasoline; it is one of the most dangerous substances in common use.

It must always be kept in tightly fastened cans; never in glass bottles.

It should never be uncovered within the house, nor at any point where its fumes can travel to an open flame, a live coal, or a spark.

Do not use it for cleaning; get a safe cleaning preparation.

Gasoline in quantity should be kept in underground tanks.

No one should be allowed to smoke in a garage.

No one should be allowed to smoke in an automobile while its gasoline tank is being filled.

Do not use water upon a gasoline or kerosene fire, use a chemical extinguisher, or else throw earth or sand upon it—try to smother it.

Varnish will hold the bristles in a paint brush that has a tendency to shed. With the bristles turned upward, pour a spoonful or two of clear varnish into them. Keep the brush in this position until the varnish is dry.

First Aid Suggestions

Never cover an iodine painted wound while it is still moist, otherwise a burn manifesting itself with a blister results.

To remove adhesive plaster use gasoline or benzine. Ether or kerosene may also be used.

Never put cotton on an open wound. First apply gauze.

Massage—All facial treatments must be followed with upward strokes of the finger tips, otherwise sagging muscles and wrinkles ensue. A lump of ice rubbed in gentle upward circles keeps the skin stimulated and the muscles firm.

Black Eye—Apply ice compresses of equal parts of Witch Hazel and Arnica. After 24 hours follow with hot water applications for at least half an hour thrice daily or swab with heated olive oil.

Bruise—Apply cold compresses followed by hot ones to decrease the swelling. Apply Tincture of Arnica once daily.

Cold Sore—Indicates a disturbed stomach. Take ½ teaspoonful of Sodium Bicarbonate in ½ glass of water three times daily; apply Spirits of Camphor or Sweet Spirits of Nitre.

Tips For the Handy Man

The next time you have painting or work to do about the automobile, fill the finger nails with soap. This can be done by scratching over the surface of a cake of soap. The soap will prevent oil, grease, and dirt from gathering under the nails.

Quite often the electric doorbell or buzzer does not respond with a slight pressure on the button. The contact becomes dirty or corroded from outdoor exposure. Remove the doorbell button housing and sandpaper the metal at the points of contact. This will increase the efficiency of the bell.

After you have washed the car and the fenders have acquired that dull gray film, moisten a part of one with a chamois skin, then go over this with a rag wet with gasoline. A few minutes later, but before the surface is dry, use a clean cotton cloth or chamois skin wrung dry, and rub hard. Repeat the process if necessary The original luster will come out.

Next spring, when you have a flower bed to weed, try my scheme. A large spoon was sharpened on one side and it proved the most effective weeder I have tried.

An old, but interesting story runs something like this:

Many years ago a group of men were planning to have a get-together supper, but no decision could be reached as to the menu. After much arguing on the part of the selfish men, it was decided to pass around a card on which was written a long list of foods. Each man scanned it carefully and picked his favorite, and opposite placed a nick.

The story does not disclose what sort of a meal was eventually served, but from that pick and a nick we have been given the word picnic.

A Menu for a Picnic Lunch

Chopped chicken, ham and pickle sandwiches, snappy cheese sandwiches, deviled eggs, sweet pickles, olives, chocolate cup cakes, lemonade, fruits in season.

Picnic Lunch

Tomato juice cocktail; rolls with ham salad filling, pickles and olives, fruitade or coffee, strawberry shortcake.

Picnic Lunch

Egg and potato salad, tongue and ham sandwiches, olives, pickles, individual apple pies with cheese, chocolate milk, hot coffee.

Uses of Soda

Soda is useful for many things aside from the original use as a baking ingredient. If silverware becomes discolored rub briskly with soda and a moistened cloth. You will find much of its previous brightness restored.

Used at intervals in the kitchen sink, it will remove grease and sweeten the trap, which even with the closest attention that can be given it, often becomes somewhat insanitary. Put a small handful over the strainer and wash into the trap with a little water. Leave for half an hour or longer, then flush out with hot water.

A weak solution of soda water is excellent for cleaning and freshening the enameled interior of refrigerators.

Used on the toothbrush, it makes the teeth beautifully white, and leaves a clean sweetness in the mouth.

If the skin is broken out with heat or similar rash, a soda bath is often healing and soothing. A small amount of soda in the footbath is very restful to tired feet.

Removing Chocolate and Perspiration Stains

In these days, when chocolate syrup poured over ice cream is so popular, very often a frock of delicate fabric is stained by this liquid.

Here is a remedy that will not fail to remove the stain.

Alcohol and ammonia in equal quantities rubbed gently on the offending spot will work wonders. Try it.

To remove perspiration stains from a satin or crepe de Chine dress, moisten the stains with cold water, cover with borax, and pour hot water through the material.

Soak and squeeze the material a little; then rinse.

This treatment will remove the stains, but it will not bring back the color if perspiration has bleached the material.

Ink stains can be removed from the fingers by rubbing with a cloth moistened with household ammonia. Rinse the hands in clear water, afterwards. Lemon juice is an excellent remover of rust stains from white fabrics.

Handy Chocolate Syrup

1 cupful of sugar
½ cupful of cocoa
¾ cupful of hot water
1-inch stick of cinnamon
2 tablespoonful of strong coffee infusion
1 teaspoonful of vanilla
⅛ teaspoonful of salt

For Ice Cream or Beverages

Blend the sugar and cocoa together. Add the hot water and cinnamon and simmer for 10 minutes. Cool, remove the cinnamon stick, then add the coffee, vanilla, and salt. Cover and store in a cold place until needed. This will keep indefinitely.

Iced Chocolate

Place 3 tablespoonfuls of chocolate syrup in a large glass. Add 3 tablespoonsfuls of cream, some crushed ice, if desired, and continue filling the glass with milk. Stir well and serve.

Cocoa and chocolate are interchanged easily. In making the substitution, it is well to allow for the greater fat content of the chocolate. Substitute three tablespoons of cocoa and one tablespoon of butter for one square of unsweetened chocolate.

Creamed Chicken Stew

Cut carefully dressed chicken in pieces for serving. Dip in 1 egg beaten slightly with 1 tablespoon water. Roll in fine bread crumbs, seasoned to taste with salt and pepper. Bake in oven, adding a little water to prevent burning. Baste several times. About 15 minutes before serving time add 2 cups cream and simmer gently. Remove chicken and thicken gravy with 2 tablespoons flour blended with 3 tablespoons milk.

Lamb Savory

Have ready as many slices of cold roast lamb as you will need. Melt 2 or 3 tablespoons butter, add ¾ tablespoon vinegar, ¼ glass currant jelly, a few grains salt, pepper and cayenne, and ⅓ teaspoon French mustard. Reheat the lamb in the sauce and serve immediately.

Creamy Scrambled Eggs

6 eggs slightly beaten
6 tablespoonfuls of thin cream

Combine eggs and cream, and salt and pepper, and cook over hot water until the yolks are cooked and the whites set. Stir constantly during the cooking and never let the water boil.

Peel old potatoes the day before using and place them in a kettle of cold water. They will then not discolor when boiled, as old potatoes do, and will have a better flavor.

Hot breakfast cereal is more nourishing if made with milk instead of water, and more interesting if occasionally dates, raisins, figs, prunes or apricots, are added.

Several tablespoons of peanut butter creamed with the shortening will give a novel and delicious flavor to cookies.

To cool a pie quickly, I remove it to a plate, which is set on top of a colander. This permits free circulation of air under the pie.

If your gravies refuse to brown properly, add a teaspoon of burnt sugar diluted in a tablespoon of cold water. You'll be surprised by the delightful golden brown color.

Tomato Cocktail

A good beginning for a chicken or roast dinner is a tomato cocktail, made by straining one can of tomatoes, adding a few drops of onion juice, and salt and pepper. Serve chilled.

Punch De Leon

Two cups Florida orange juice; one cup grapefruit juice; juice of two lemons, one large cup of sugar; juice one can Hawaiian pineapple; three cups weak tea, mix in punch bowl with blocks of ice. Just before serving add two bottles of ginger ale, sprig of mint, serve in small glasses.

Peach Delight

Drain the juice from 1 quart of canned peaches, chop fine and add 15 marshmallows cut into small bits. Then add ½ pint of cream, whipped stiff. Mix well. Chill for 4 hours, stirring occasionally.

Wassail Bowl

Simmer together for 10 minutes the following ingredients; 2 quarts cider, 2 cups orange juice, 1 cup lemon juice, the juice from 2 cans of sliced pineapple, 1 stick cinnamon, 1 teaspoon whole cloves and sugar, or honey if desired, to taste. Strain and serve hot. If served from a large bowl, have tiny whole red-boiled apples floating in the mixture.

In preparing fresh tomatoes for the table, instead of peeling them, just rub the surface gently with the back of a knife, and the skin will slip off easily, leaving the tomatoes firm and whole. There is no waste nor loss of juice as when they are peeled with a knife, and the slices are more uniform.

Keep the percolator clean and well aired. Coffee left standing will stain the inside and may spoil the flavor of the best brand.

The easiest way to stem strawberries is to use a teaspoon. Insert the end of the spoon under the stem and lift it out with the spoon pressed up against the thumb. Slight bruises or spots on the fruit may be removed in the same way. This method saves the fingers from getting sore when many berries are to be stemmed.

Have you ever made a pie of apples which were rather flavorless? Try sprinkling a tablespoon or two of vinegar over the apples just before you cover the pie with the top crust. Lemon juice may be used in place of the vinegar if you prefer.

Whipped evaporated milk may be substituted for whipped cream. Allowance should be made for the fact that the evaporated milk practically trebles, while the cream doubles, in bulk. Whipping cream and evaporated milk may be combined and then whipped.

When baking pies that are juicy, prevent the juice from running over in the oven by binding a strip of muslin around the pie before putting it in the oven.

Prepared mustard may be substituted for dry mustard by using a greater amount of the former to compensate for its moisture content. Usually if the recipe requires one teaspoon of the dry mustard, it will be necessary to use from one and one-half to two teaspoons of the prepared mustard.

Ice Cream

If you share the great American passion for ice cream, you will be glad to learn some interesting variations for "plain vanilla." A surprisingly delicious addition is a bit of powdered peppermint candy sprinkled over the top.

Another "company touch" is provided by a generous sprinkling of crushed peanut brittle. Put the peanut brittle through the food chopper but be sure the candy is cold or it will be too sticky in hot weather. Both these suggestions are easy and quick ways to dress up a commonplace dessert.

Honey Ice Cream

2 Cups Scalded Milk
½ Cup Sugar
½ Cup Honey
3 Eggs
½ Teaspoon Salt
1 Teaspoon Vanilla
⅔ Cup Evaporated Milk

Coffee Punch

An unusual beverage which never fails to delight guests is coffee punch. It is inexpensive and always suitable, no matter what the season of the year. Here is a recipe for a large party of very thirsty human beings:

In a bowl place a block of ice. Make your coffee by the drip method, which means it should be finely ground and that it will be full of fragrant flavor. The coffee should be fully a half stronger than usual because of the dilution by the ice.

Let us use four quarts of coffee for this punch. It is poured over the ice and then a cup of heavy cream and two-thirds of a cup of powdered sugar are added. Next comes a quart of vanilla ice cream, which should be placed in a punch bowl in large spoonsful, and a cup of chopped maraschino cherries and their juice—the cherries add the Turkish touch.

When the punch has become thoroughly chilled you will find it makes a popular drink at any party.

Aunt Hetty Sez:—Try These

Pineapple and Cucumber Salad

2 cups diced pineapple
2 cups diced cucumbers
½ cup chopped green pepper
⅛ teaspoon salt
1 package lime gelatin
1 cup boiling water
1 cup cold water
2 tablespoons lemon juice

Dissolve the gelatin in the boiling water. Add cold water, salt, and lemon juice and stir until well blended. Cool until partially set. Add pineapple, cucumber, and green pepper. Pour into individual molds or into large mold which has been rinsed in cold water. Set in cold place until firm. Garnish with slices of cucumber and hearts of lettuce. Serve with mayonnaise dressing.

Never chop onion into salad, if you like the onion flavor, either rub the salad bowl with onion or draw your knife through the onion before slicing the other vegetables.

When glue is not available shellac may be used to fasten materials to wood.

Standing on a concrete floor while using an electric iron is dangerous, for a shock may be transmitted if the concrete is damp.

Nippon

IN THE "Nippon" we have exquisitely blended background and interesting drawing, faintly reminiscent of Japan. The heavy embossing—rich glowing colors and clever gold treatment, gives it the unmistakable mark of quality. Suitable for downstairs rooms and Hall. It is, of course, FAST COLOR and will give you splendid service. Pretty Band Border to match.

TO DETERMINE the correct amount of paper needed for any room, take the maximum floor measurement of the room and locate the room size on the chart which corresponds the closest to your measurements. Then, from the number of rolls indicated, deduct two rolls for every four doors, windows or other openings. The result will be the number of rolls of sidewall required. The corresponding quantities of both border and ceiling will be found in the last two columns of the chart.

If your room is not exactly one of the sizes shown in chart, order according to the next larger size shown.

Be sure to order enough paper. It is always a good idea to have a little paper left over, because your walls may become soiled in some way, and it is very easy to patch with the spare roll you may have.

The cost of new wallpaper is small. A few dollars invested in wallpaper will transform every room in the home, and will bring to your rooms beauty, comfort and pleasure that you cannot measure in dollars.

Whenever possible, have a good paperhanger do your work, as the most beautiful of decorations can be spoiled by improper hanging.

You would not hang a picture without framing—do not hang wall papers without borders. Niagara Borders harmonize perfectly with sidewalls, adding a finishing touch and interesting color.

Use the best wallpapers. The cost is little, if any, greater than the cost of papering with a cheap, flimsy paper, and the difference in looks and wearing qualities will repay you.
